

Frans Joddy Sutjianto

Data Engineer / Data Analyst

Bandung, Indonesia | +6282226836337 | fransjoddy@gmail.com | [LinkedIn](#) | [GitHub](#)

SUMMARY

Computer Science graduate with interest in data-centric business solutions and system creation. Skilled in using Python, PostgreSQL, Google BigQuery, and Selenium to access and transform data. Recently completed Hactiv8 Data Science Bootcamp to augment CS skills with data driven business solutions. Eager to apply analytical thinking, problem-solving, and technical skills to contribute in scalable data systems and business solutions.

EDUCATION

Hactiv8 Bootcamp

Data Science Program. Score: 90%

Jakarta, Indonesia

08/2022 - 12/2022

Bina Nusantara University

Bachelor of Science in Computer Science (GPA 3.54/4.00)

Bandung, Indonesia

2020 – 2024

WORK EXPERIENCE

PT. Industri Telekomunikasi Indonesia

Programmer Internship

Bandung, Indonesia

September 2023 – February 2024

- Developed and maintained software applications using PHP, HTML, and CSS enhancing functionality to meet user requirements.
- Collaborated with senior programmers to troubleshoot software issues, implementing solutions that improved system reliability.
- Assisted in the design and implementation of database systems using MySQL, optimizing queries for better performance.
- Took initiative in learning new programming languages and frameworks as required by specific projects or assignments.

SKILLS

General Skills: Computational Thinking, Data Exploration, System Creation

Programming Language: Python, SQL, C

Libraries / Framework: Pandas, NumPy, SciPy

Tools: PostgreSQL, Tableau, Google Colab, GitHub, Visual Studio Code

Techniques: Data Transformation

Others: Google Cloud Platform (Google BigQuery), FastAPI, Vercel, Selenium, BeautifulSoup4

Language: English (Fluent), Indonesian (Native)

PROJECTS

CERTIFICATIONS
